## Fund manager's comments

During the first quarter of 2021 the following main events can be reported::

- The public authorities of the Canton of Geneva have signed a 10-year lease for more than 10% of Arcenter's office space in Vernier (GE). This AAA tenant will locate its biometric passport and identification document services in the premises. This new signing follows the long term lease signed for almost 2600m<sup>2</sup> last quarter and thus confirms the attraction of the location. It is also good news for the current retail tenants since this public service center will generate extra flows of visitors in Arcenter.
- An ESG strategy was adopted by the Board of Directors, making sustainability considerations one of the main drivers in SRPF's future investment's decisions, and the roll-out of actions has been launched.
- Following last quarter comprehensive technical review, a consistent and multi-year CAPEX plan was worked out at portfolio level and its implementation has started. A new position was created for an expert in construction and development matters with ESG oriented specific skills.

Despite the persisting pandemic and the challenging environment that presides in the market, SRPF's improvements are expected to continue unabated.

At the end of April SRPF's annual report will be issued and will provide further details and information on the portfolio performance in 2020.

The team thanks its tenants, its investors and its partners for their trust.

Source of performance figures: JSS Real Estate Management Ltd., Bloomberg; Bank J. Safra Sarasin Ltd; Annual or semi-annual financial reports JSS Real Estate Management. Performance was calculated on the basis of net asset values (NAV). When calculating performance, all the costs charged to the fund were included to give the net performance. The performance shown does not take account of any commissions and costs charged at the investor level when subscribing and redeeming units. Additional commissions, costs and taxes charged at the investor level have a negative impact on performance.

Past performance is not a reliable guide to future performance. The value of your investment may go down as well as up. The return upon the investment will therefore necessarily be variable. Consequently, there is no guarantee that investors will get back the full amount of their invested capital upon redemption. The main risks of the Fund can be found in the fund prospectus and include (i) changes in the value of properties and in the rental market, (ii) limited liquidity, (iii) environmental and construction related risks, (iv) development of competition, (v) regulatory changes, (vi) variation in costs of borrowing.
